AH1N1v influenza in pregnancy: A comparison with Australia/ New Zealand

A comparison of data from UKOSS with data from our sister organisation in Australia/New Zealand, the Australasian Maternity Outcomes Surveillance System (AMOSS), shows several important differences between women admitted to intensive care units (ICUs) with AH1N1v influenza in the UK and those admitted in Australia and New Zealand.

The key differences were:

- Australia and New Zealand experienced an estimated 7 admissions to ICU with AH1N1v infection per 10,000 maternities. At the peak of admissions in the UK, the rate of ITU admission was lower, with an estimated 3 women admitted per 10,000 maternities.
- This difference may reflect successful public health interventions in the UK, including earlier and more comprehensive use of antivirals, introduced after the severity and clinical course of the disease in pregnancy became clear from the Southern hemisphere experience.
- Different ethnic minority populations may account for much of the difference in ITU admission rates, notably the 30 times greater tisk of admission among indigenous Australian/New Zealander pregnant women compared to white women in the UK.
- These findings have clear implications for the planning of services in Australia and New Zealand in both the forthcoming influenza season and for future pandemics
- This analysis did not suggest that there was any change in disease severity between the first wave and second wave of the pandemic. However, the study reiterates the overall severity of AH1N1v influenza infection in pregnancy and emphasises the importance of an ongoing immunisation programme in pregnant women in both Northern and Southern hemispheres.

Case report summary for current studies to 8th September 2010

Disorder	Actual number of reported cases	Data collection forms returned (%)	Number of confirmed cases	Expected number of confirmed cases
Amniotic Fluid Embolism	119	110 (92)	76	67
Aortic Dissection	6	4 (67)	1	49
Severe Obstetric Cholestasis	94	49 (52)	18	98
Myeloproliferative Disorders	8	5 (63)	5	34
Pregnancy in Non-renal Solid Organ Transplant Recipients	75	65 (87)	51	75
Pituitary Tumours	18	8 (44)	2	26
Placenta Accreta	38	17 (45)	15	54
Pulmonary Vascular Disease	69	59 (86)	26	39
Sickle Cell Disease	48	26 (54)	22	150

Thanks to the following hospitals who have returned cards for the last three months:

Recent publications:

Full results of three UKOSS studies Extreme obesity in pregnancy in the UK (Obstet Gynecol. 2010;115(5): 989-997), Amniotic fluid embolism in the UK (Obstet Gynecol. 2010;115(5):910-917) and AH1N1v in pregnancy (Health Technology Assessment 2010; Vol. 14: No. 34, p. 101-182) have been published.

UKOSS data on peripartum hysterectomy have also been used to investigate whether the Robson Ten Group Classification System (TGCS) can be used to audit severe maternal morbidity. (Midwifery. 2010).

In addition, data gathered on adoption of newer surgical strategies for gastroschisis and their outcomes using UKOSS and a complementary surveillance system for surgically managed congenital anomalies, BAPS-CASS, is now available (J Pediatr Surg. 2010;45(9):1808-1816).

The links to these publications are featured on the UKOSS website. If you would like receive printed copies, please email us and we will be happy to send them to you.

Spotlight on the UKOSS Steering Committee: Appointment of new Committee Chair and Members

Following a voting meeting on the 14 May 2010, Professor Derek Tuffnell (Professor of Obstetrics & Gynaecology, Bradford Teaching Hospitals NHS Foundation Trust) was appointed as the new Chair of the UKOSS Steering Committee. He is replacing Dr Cathy Nelson-Piercy (Guy's and St Thomas' NHS Foundation Trust and Imperial College Healthcare NHS Trust). The NPEU, UKOSS and the UKOSS Steering Committee would like to thank Dr Nelson-Piercy for her time and invaluable contribution to UKOSS.

Professor Tuffnell will chair the committee for the next 3 years and will be supported by Mervi Jokinen [The Royal College of Midwives (RCM)], who remains in her function as the Vice-Chair. The Committee also welcomed Mr Philip Banfield, Mr Kim Hinshaw and Dr Lucy Mackillop as new members. The current members of the committee are:

(Pictured, left to right) Lucy Mackillop (Obstetric Physician), Nuala Luca (Obstetric Anaesthetist), Jenny Furniss (Lay Representative), Jenny Kurinczuk (Clinical Epidemiologist), Tim Overton (Obstetrician), Marian Knight (Head of UKOSS), Cynthia Clarkson (National Childbirth Trust Representative), Leslie Marr (NHS Quality Improvement Scotland), Derek Tuffnell (Chair, Obstetrician), Mervi Jokinen (Vice-Chair, Royal College of Midwives), Gwyneth Lewis (Department of Health), Philip Banfield (Obstetrician).

(Not pictured): Maggie Blott (RCOG), Peter Brocklehurst (Clinical Epidemiologist), Jean Chapple (FPH), Shona Golightly (CMACE), Ian Greer (CMACE), Kim Hinshaw (Obstetrician), Christopher Lennox (NHS Quality Improvement Scotland), Richard Pebody (HPA), Felicity Plaat (Obstetric Anaesthetist), James Walker (NPSA).

Chocolate Box

Chocolates this month for Jackie Durbridge from London for her detective work tracking down outcome information, and for Kevin McGrath from Belfast for consistent and timely reporting. Thank you!

Reminder: Pituitary tumours case definition

We are collecting details of all women with a pituitary tumour in pregnancy **including women diagnosed prior to pregnancy** or diagnosed in pregnancy with a macroprolactinoma, Cushing's disease, acromegaly, thyrotrophinomas or non-functioning pituitary tumours. Note that women with a microprolactinoma (a prolactin-secreting tumour less than 1.0cm diameter) are excluded, but if you don't know the size of the prolactinoma, please report the case anyway. Thank you!

Applications sought for new UKOSS Steering Committee: Midwife member

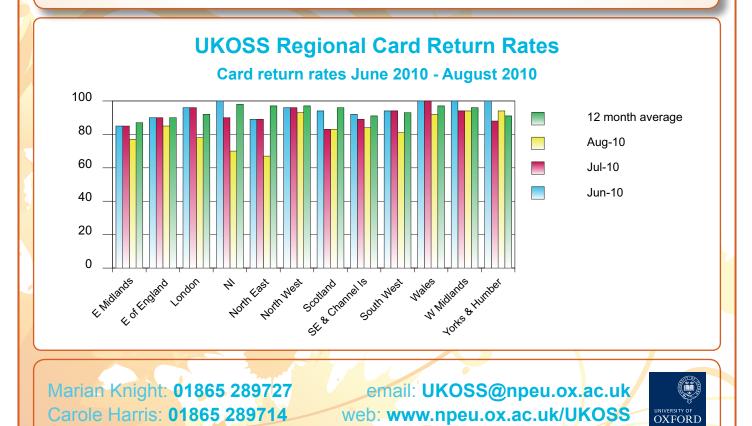

We have a vacancy for a midwife to join the UKOSS Steering Committee. The committee meets three times per year and its main roles are to consider applications for inclusion of new studies on the UKOSS programme and to monitor the progress of ongoing studies. The positions are not remunerated but meetings may be considered as part of continuing professional development.

Interested applicants are requested to submit a two page CV and a short letter stating why they would like to undertake the role to Dr Marian Knight (marian.knight@npeu.ox.ac.uk)/ UKOSS (ukoss@npeu.ox.ac.uk). Applicants will be assessed on the basis of the following criteria:

- 1. evidence of contribution to and interest in UKOSS;
- 2. evidence of forging links within and out with ones own professional group;
- 3. research or audit experience in obstetrics/ maternity care; and
- 4. experience of committee work

The closing date for applications is the **10 December 2010**.

Further details can be obtained from Dr Marian Knight (marian.knight@npeu.ox.ac.uk).

This is an independent report from a study which is part-funded by the Policy Research Programme in the Department of Health. The views expressed are not necessarily those of the Department. Studies are additionally funded by Wellbeing of Women, the Obstetric Anaesthetists Association, Guy's and St Thomas' Charity, SPARKS, Heart UK and the Edgar Research Fellowship Fund of the Royal College of Obstetricians and Gynaecologists.
